**d** Diese Fahrradroute führt Sie durch malerische Dörfer der Velebit Umgebung, geprägt von der traditionelle Steinarchitektur, mit zahlreichen wertvollen kulturo-historischen Lokalitäten und wunderschönen Aussichten auf das Gebirge und das Meer.

Die Route beginnt im Zentrum von Starigrad-Paklenica (1). An der Kreuzung (2) ist es möglich rechts abzubiegen und die einzige Grabdenkmaler MIRILA (A) zu besichtigen. Sie erreichen diese Stelle nach 1 km aufwärts.

Die Hauptroute führt geradeaus, vorbei an alten Brunnen und Wasserbecken (B), die früher die einzigen Trinkwasserquellen waren.

Im Dorfchen Marasovići empfehlen wir Ihnen das neu errichtete Ethnhaus (C), mit einer kleinen ethnographischen Sammlung und traditioneller dalmatinischer Weinstraße, zu besuchen.

Von hier aus können Sie sich auf eine Entdeckungsreise des Nationalparks Paklenica (D) einlassen oder in Richtung des schönsten Strandes Kulina in Starigrad, zu fahren. Bekannt ist der Strand nach dem Turm genannt Večka kula (E), der das Geheimnis des Königs Pasoglav bewahrt, zu fahren.

Wenn Sie am Eingang des Nationalparks Paklenica (3) rechts abbiegen, fahren Sie weiter mit der Hauptroute, die auf der Strecke bis zum Dorfchen Dadić/Skljijači mit Lehrtafeln Tafeln ausgestattet ist und Sie auf eine "Kleine Reise durch die Geschichte führt" (F).

Weiter erwartet Sie eine angenehme Fahrt entlang traditioneller Trockenmauern und einer wunderschönen Aussicht aufs Meer. Oberhalb des Dorfchens Jurline befindet sich noch ein altes schönes Wasserbecken (G), und aus dem Dorfchen Jusupi (4) können Sie bis zum Zentrum von Selini und der örtlichen Schönheit - den Naturkeksstrand Pisak, runterfahren.

Aus dem Dorfchen Reljani fährt man rüber auf die Hauptstraße (5), entlang der man 1 km fährt und dann auf einen Schotterweg abbiegt (6), wo man eine wertvolle historische Lokalität findet - die Ruinen des mittelalterlichen Schlosses Modrič (H). Von hier haben Sie einen hervorragenden Ausblick auf das Meer und eins Festland eingeschlossene Bucht, interessant wegen ihrer Quellen, aus denen Süßwasser salzförmig aus dem Meeressboden hervorquellt.

Nachdem man runter ins Zentrum von Modrič gefahren ist, biegt man links zwischen der Straße und der Trockenmauer ab; man überquert die Hauptstraße und erreicht eine Bushaltestelle, neben der man eine gepflegte Trinkwasserquelle genannt Vrilo Velebit findet.

Auf dieser Stelle können Sie Ihre Fährt mit der Route Nr. 2 fortsetzen oder mit derselben Strecke zurück nach Starigrad-Paklenica fahren. Ein unvergessliches Erlebnis der Verbindung von Meer und Bergen ist bei der Rückfahrt völlig anders und noch intensiver.
